

FCC:

I have XM radio and I listen to its traffic and weather channels as well as many of its other wonderful channels. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to listen to. I respectfully urge you to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that I and many other people desire and deserve. Bottom line, please do not permit companies such as NAB to bully the public by trying to trounce satellite radio. Thank you.

Sincerely
Jeanette Khan
